14500 E. 12 Mi. Rd - Bldg S, Room S101, Auditorium  
Warren, MI 48088

## Author & Presenter: Roderick A. Munro Lean Six Sigma for the Shop Floor

*“Lean Six Sigma for the Shop Floor”* will be the next revision in the ASQ Quality Press series of Six Sigma books that Rod has been honored to have been a part of. Rod has worked with Six Sigma Methodologies since Motorola first introduced the concepts to Ford Motor Company in 1989. Rod lead a team of ASQ Greater Detroit Section Fellow members who debated the use and application of Six Sigma in the early 1990’s. With the applications of Lean Methodologies included in  $6\sigma$ , employees on both the shop floor and in offices have a powerful tool that can be used to assist these organizations alike in ensuring continual improvement.

Roderick Munro is a Business Improvement Coach with RAM Q Universe, Inc. Dr. Munro has over thirty years of experience working from the shop/store floor up to managerial ranks. He is an American Society for Quality (ASQ) - Fellow, CQE, CQA and Certified Manager of Quality / Organizational Excellence. He is a Lean Six Sigma Coach and has experience with ISO 9000, ISO/TS 16949, ISO 14000 and BSI OHSAS 18001.
